About This Game

The castle within the town of Cloudfall has been taken over by an evil demon. Prince Helios has offered a huge bounty to anyone who's able to clear his family's castle and restore order into town. It is your task, as an adventurer to help defeat this evil, bring peace and gain whatever it is that's driving your own personal motivations.

Characters

Samano

Samano is a Ronin who hears about the demon and wants to do this job of slaying the demon to bring honor and wealth to her fame.

Wilhelmina

Wilhelmina is a country girl who loves to fight, the stronger the opponent the better. She thinks of herself as the greatest demon

hunter ever and wants to kill the demon to prove that right.

Slavia

Slavia is a Sorceress who wants to capture the demon. She's not interested in money or fame, she just wants a plaything that she can torture for fun and no one will judge her, if it's an evil demon that she can use for her sadistic fun.

Hacathra

Hacathra is a cleric, as a spiritual and a follower of a light, she's by her very nature drawn towards the vanguard of the demon. She's not really interested in money or fame and feels that this is simply said, her duty to smite the evil.

Aurae

Aurae is a hunter and a mercenary. She does help people for small moneys and volunteers to aid in destroying the demon, in

exchange for some money.

Miwafin

Miwafin is a genie, who has received a wish about the demon's demise. While Miwafin is not the most powerful genie in the world, she is determined to fulfill the wish and end the demon's rampage, no matter what the cost.

Michi

Michi is a fun loving catgirl, who spends most of her time doing cat things, like scratching things and being lazy. However, she volunteers destroying the demon in exchange for all the milk that she can drink. (She can drink a lot of milk.)

Bentley

Bentley is a pirate, who hears about the demon. This is no good for anyone and business would suffer, so she offers to get rid of

the demon in exchange for gold and jewelry.

A Great Game. If you are looking for some adventure this is for you. There are tasks but you are to search and complete them. Grafix are great. A few bugs are there but only adds to adventure. Give it a try you might like it.. I mean... as part of the season pass it's okay... I wouldn't pay \u00a35 for it though it's kind of\u2665\u2665\u2665\u2665\u2665. I love love love the Fighting Fantasy game books from the 80's\90's The "choose your own adventure" books were incredible and seeing them transformed on all types of platforms really makes me happy.

Please make Warlock of firetop mountain and City of Thieves as well!. Being from the cold of Noway a ski simulator was a "must have". Much to my surprise this rather simple game is probably among the most popular VR experiences when I have visitors. The first few versions were convincing enough to require me to help people up from the floor after a particularly "hard" landing, but it seems the developer have made it a bit more "friendly" in later versions.

At a fairly low price it is worth the experience, particularly if you have done some skiing previously, however this is in no way a simulation of the real experience, just a fun arcade action experience :). An online multiplayer game with no players...

Absolute trash 0V10. Kinda expensive but good building and fun little side mission the assesory could be better

Visually great (in its class), yet the gameplay is not good. This game was unfortunately not able to handle the fundamental problems with the Spellforce2, would require lots of fine tuning. Also containing lots of bugs (maybe will be corrected later on) Spellforce 1 was much better.. I got this on sale for 0.49 it was worth it. Quantum Conscience is a fun visual novel with a bit of a twist \u2013 rather than making direct choices, you choose whether to read someone's mind, and then your character acts according to the information they have (or their emotional reaction to the information). It's a nice variation, and the fact that not reading thoughts is the default means it's on the player to choose to invade others' privacy (whatever your intentions). The game is short enough for the mechanic not to outstay its welcome, and there's plenty of variations within the endings to make for fun replays.. This game is just so great. The ability to not pass levels is just great. I also love the game being just a loading screen.. So, my first ever RE experience was RE2 on the PS1....

RE7 - Loved it

RE6 - Garbage

RE5 - Loved it

RE4 - Loved it

RE 2 - All time favorite

RE 1 - Loved it

I really want to like this game, I just can't. I mean why? Look if people want this game in its most primitive state, buy a gamecube and play it for nostalgia. If you're remaking it why wouldn't you incorporate some new ideas?

I could probably deal with one or two of the main gripes here but dealing with all three its just unbearable. First off, the inventory system. Ok, it's a remake... It didn't exactly get rave reviews across the board. Just give each person +2 slots and it might have been better. This whole game feels slow. You deal with the RE opening door cutscenes, no inventory boxes & exchanging + dropping items on the floor for inventory management? It slows down the gameplay.

The two player situation... In all honesty, do a remake. Hell make it co-op... Make one of the characters more of an AI that goes on their own and does their own S***. This should have been looked at and redesigned. I'd much rather be attached to one character and then try the others campaign then feeling unattached to both.

Third thing, the fixed camera angles. Its just annoying. Back in the 90s this was awesome, but its just outdated. It wasn't so bad on RE remake because you didn't deal with all the other slow issues. Re-do the game in 3D, these camera angles are horrendous and unsatisfying. RE2's remaster was so well done and they removed the fixed camera, if I wanted to play the original I'll go dig up my ps1.

This game could be been so much better, instead it's still one of the worst entries in RE's history. Simple QoL like increase each characters inventory by +2 and make it 3D and I wouldn't have any complaints. I'd prefer a redesign to the two character system, and it could be done, but just those original changes would have made this game so much better.

Extremely disappointing and I just don't have the patience to run through this game with all the inventory management and slow-down. Look inventory management isn't challenging or "hard" it's just annoying. Returning to places on the map with all the slow loading cutscenes to flip through menu after menu dropping and picking stuff up just slows the game down.. Great Bat and Ball Pinball Retor 2D Pixel Indie Art.

. Very interesting game with several mini-stories that combined in a journey of three men. On every stage of the journey you can change the way you will act to see what happens next. There is almost no gameplay or any puzzles. You just select the way you want to see the journey and waiting for the next episode.

In the previous month the game was distributed by subscription PS Plus, game given the simple achievements, the next simple platinum ;)

. My cat enjoyed this game which is weird since I don't have a cat.. You shouldn't buy this game. Sparkle 2 was calm and relaxing. Sparkle 3 on the other hand gets me more agitated then anything else ive ever played.

I honestly think the gamedesigner thought: Mmh how could i design the level so that it will be so annoying and frustrating, that all the people playing it will get so aggro that they will destroy there computers and never play anything ever again?

This game sucks. Dont make the mistake i did. this game isn't even worth a penny.
